

Entertain + Sustain delivers *interactive experiences* that create *valuable insights* encouraging *sustainable innovation*

Imagine... an engaging and entertaining event experience. Imagine an experience where the visitors are invited to play and interact, an experience where they can co-create and showcase their ideas. A place where both the visitor and the organizer bring home value and insights, resulting in an ideal input for sustainable innovation.

Entertain and Sustain designs and produces exciting, interactive event experiences resulting in a positive behavioural attitude towards sustainability. By combining entertainment with creative workshops around themes set by the client, the visitors will not only have a great experience but also generate interesting ideas and deliver valuable insights.

Our system We let people experience sustainability, which helps to change people's attitude towards sustainability and inspires them to participate in co-creation processes and creative workshops. This brings forth new ideas and valuable insights which stimulates sustainable triple bottom line innovation.

Our dream We want to be instrumental in creating a society where sustainable products and services are the norm. By providing opportunities where companies and users can co-operate and co-create we hope to be part of many great sustainable innovations.
